Hannah R. Cope Plimpton is in a direct line of lescendents from Oliver Cope, a Quaker who came to America with William Penn in 1862. Her father, Nathau Cope, and mother, Elizabeth Taylor, were raised in West Chester, Pa. After their marriage, in 1833, they emigrated to the "Far West," to eastera Ohio, Columbiana County, where their daughter Hannah was born in the town of Hanover. In 1856 Mr. Cope moved to Cincinnatt, O., to give his children better educational advantages. In a

THE NATIONAL G.A.R. MEMORIAL COLLEGE. DEAR TRIBUNE: The object of this school is to every department will be free to the children and children's children of all Union soldiers and sailors. Also to place it within the reach of those patriots who are struggling to make a home on these plains, and who are, by reason of their condition and the distance from the colleges of the East and of more prosperous communities, unable to educate their children as best belits the sons and daughters of our Nation. This itving monument, the beneficent influence

of which will be felt in each pulsation and heartthrob of those who may go forth from its walls, equipped by a thorough training for life's duties and responsibilities, will grow and be felt in the | the interests of our grand Order, State and Nation, and outlive the ravages of time, In its object to embellish and beautify lives, to elevate to a higher and nobier place many of the youth of our land, who otherwise might be de-prived of the opportunity of a good education, the G.A.R. Memorial College stands unique end alone of its kind, and we ask the hearty co-operation of

nil good, patriotic citizens. The National G.A.R. Memorial College commenced its second year's work Sept. 9, 1890, and, though there has been much to hinder the desired progress of the school, we are encouraged, and have begun the second year's work with bright prospects. With the support given by the recognition of the National Convention, W.R.C., and the daily-increasing number added to our army of helpers, we are assured of a rapid progress, and equal in number that of the Grand Army of the Republic, thus giving to the institution a support ington, D. C., for it. not equaled by any other, and enabling it to become the grandest monument of the age. The National G.A.R. Memorial College wishes to tender sincere thanks to the eighth National Convention, Woman's Relief Corps, and to Margaret K. Wickens, Past Department President of Kansas, who has so nobly worked in behalf of the college, for the influence and support they have given the school in the resolutions of the Convention. With this sisterly encouragement and a little aid from

To the Members of the Order in this Department: Richard F. Tobin, Senior Vice Commander-in-Chief, and Past Department Commander of Massachusetts Grand Army of the Republic, has, after many weeks of suffering, laid down his life work, and has gone to join that "grand army whose term of service is completed," In his death our Order has lost a true and loyal- MICHIGAN. and hand to encourage and assist us in our work. His grand indersement, and words of appreciation f our services during the work of the National Encampment and Convention will never be forgotten by those who heard his elequent words. Our hearts are heavy with the burden of sorrow and we feel that it would be fitting, as auxiliary to the Grand Army of the Republic, to unite with the comrades in this Department in an expression of

sorrow and bereavement.

Therefore, we carnestly request that the charters of the Corps in this Department be draped in mourning for 30 days, as a tribute of love and respect to the memory of this gailant sailor hero. May we remember those dear ones whose hearts

are aching, and whose loss is so heavy to bear; let us take them in our prayers to our Heavenly Father, whose car is ever quick to hear the cry of His children, and who has promised that the widow and fatherless shall never be forsaken. MARY E. KNOWLES, MARY E. ELLIOT,

OUR HEROES IN HEAVEN. We are having the first charming snow fall of

A white touch of Wintry weather, Every flake is like a feather, Sofily floating through the air; Where the winds are is a mystery; Never in all weather's history, Was a day more gently fair.

Opposite to my study window is a cemetery, where many soldiers have pillowed their heads amid the shadows of death's still nighttime. Their martial fervor is ended; their bravery is a tearbedewed tale of the past. How marvelous is the secret of death, that even flery valor is conquered, and waits in patient abeyance during the silentfooted years! The snow vail covers all with its purity, the stratum of dust below hides only dust. It is blessed to believe; and, amid the trumpets of heaven and the march of angles in rose gardens by the crystal river, the self-sacrificing heroes of the past still gaze with loving, shining eyes upon Lincoln, Grant, Garfield, and many glorious com-rades first loved here.—Laura Rosamond White,

COMPOUND DXYGEN IS A CONDENSATION OF NATURE'S OZONE. IT IS CHARGED WITH ELECTRICITY. INHALED TO THE LUNGS IT SENDS A REVITALIZING GLOW ALL THROUGH THE BYSTEM. THEN A DELIGHTFUL SENSE OF RETURNING VITALITY AROUSES THE DESPONDING INVALID TO RENEWED EXERTION. BEST OF ALL -- THE STRENGTH THUS AROUSED DOES NOT DISAPPEAR WHEN THE USE OF THE OXYGEN IS DISCONTINUED. IT REMAINS TO ERADICATE DISEASE, FOR STRENGTH IS NATURE'S BEST SPECIFIC.
